**PRE-APPEAL BRIEF REQUEST FOR REVIEW**

COMMISSIONER FOR PATENTS  
PO BOX 1450  
ALEXANDRIA, VA 22313-1450

SIR:

Applicants hereby request, pursuant to the pilot program described at 1296 Off. Gaz. 67 (July 12, 2005, as extended on January 11, 2006), pre-appeal brief review of the outstanding rejection of claims 1-12, 44 and 47 of the present application. The current version of the claims is reflected in the amendment dated December 15, 2005.

The Examiner has again rejected claims 1-12, 44 and 47 under 35 U.S.C. § 102 (e) as anticipated by U.S. Patent No. 6,442,694 ("Bergman"). As explained more fully in the Amendment dated December 15, 2005, the Examiner has made a clear mistake by confusing predicting when a terrorist attack will occur with detecting an attack that has already been launched. This is a simple yet fundamental difference.

Applicants have reviewed the passages cited in the "Response to Arguments" section of the office action, and they are all directed toward detection rather than prediction. Accordingly, Bergman fails to disclose "determining a probability that a terrorist attack using the weapon and at the delivery point will occur" as required by claims 1 and 7. Applicants therefore request withdrawal of the outstanding rejection and allowance of all currently pending claims.

Respectfully submitted,
